Re: Microsoft Settlement

We are writing to let you know that we are strongly in favor of Microsofts position on the proposed antitrust settlement. It is in the best interest of the country and the economy to resolve this matter now.

The action of some of the state Attorneys General have resembled extortion much more than they resemble a reasonable approach to the issue.

The more the government throttles the rapidly changing high-tech industries the worse it will be for everyone.

Sincerely,

Dr. Bryce Buchanan
